Preface

Since its establishment in 1993 The Palestinian Central Bureau of Statistics (PCBS) has worked tirelessly to achieve a statistical system at the national, regional and international level, including the provision of foreign trade statistics according to the concepts, standards and international recommendations which are aimed at providing useful data at the national level, comparable at the international level and provide the most important statistical indicators on the detailed level.

The (PCBS) is pleased to issue the local version of the Harmonized Commodity and Description System (HS) which replaced the Standard International Trade Classification (SITC).

The PCBS started using recent HS issued by the World Custom Organization (WCO) since the year 2008 and issued the 2007 annual report according to the HS, The local version of the HS was prepared based on the Standard copy of the HS 2007 and the Palestinian Tariff Book used by the Ministry of Finance.

PCBS hopes that this classification to unify standards at the data sources which will lead to a comparable and high quality statistical figures.
