### تقديم من سيادة الرئيس محمود عباس "أبو مازن" رئيس السلطة الوطنية الفلسطينية

يعتبر التعداد العام للسكان والمساكن والمنشآت ركناً أساسياً من أركان النظام الإحصائي الرسمي في أي دولة، حيث يأتي تنفيذه خلل عام 2007 استحقاقاً قانونياً وتتموياً ووطنياً وسيادياً، و يمثل تنفيذه لبنة أساسية في عملية بناء الدولة وإرساء أسس التخطيط السليم بمعايير علمية نظراً لما يوفره من إحصاءات دقيقة وتفصيلية لكافة نواحي الحياة، ويساهم في بناء الدولة الفلسطينية وإنجاز الاستقلال السياسي والاقتصادي والاجتماعي، وتحقيق التنمية.

لقد جاء تنفيذ هذا المشروع الوطني الكبير في ظل ظروف غاية في التعقيد على مختلف الأصعدة، مما جعل تنفيذ التعداد مهمة صعبة تعترضها الكثير من التحديات والأخطار، إلا أن عزيمة الشعب الفلسطيني وإصرار الفريق الوطني، واحتضان القيادة السياسية جعلت من التغلب على هذا التحدي أمراً ممكناً أدى إلى تنفيذ التعداد العام الثاني في الأراضي الفلسطينية بجودة عالية وفق المعايير الدولية، بأيد وبخبرات فلسطينية وبقرار فلسطيني مستقل، واستجابة للحاجات الوطنية في شتى المجالات.

## منظمت النحرير الفلسطست

# السلطت الوطنيت الفلسطينيت

لقد أسهم التعداد في إعادة الموضوع التتموي على الأجندة الوطنية والدولية في فلسطين، بعد أن تراجع دورها لصالح الأجندة الإغاثية، فالتتمية أهم الدعامات الضرورية لتأسيس مجتمع ديمقراطي، وبناء إنسان حر ملتزم بالمبادئ الوطنية والإنسانية. والإحصاءات الدقيقة والعلمية هي العمود الفقري لوضع خطط تتموية مبنية على أسس سليمة تشكل رافعة لقضايا التتمية وتحقيق الأهداف المعلقة عليها.

لقد أبدى المجتمع الدولي اهتماماً بالغاً بهذا المشروع التنموي وعبر عن اهتمامه من خلال الدعم المادي والفني الذي قدمته بعض الدول الصديقة والمنظمات الدولية. فقد كان لصندوق الأمم المتحدة للسكان مساهمة مادية وفنية جادة، وكذلك صندوق أوبك للتنمية الدولية، وحكومات النرويج وهولندا وسويسرا واستراليا، والمملكة العربية السعودية ومنظمة الأمم المتحدة للطفولة "اليونيسيف"

إننا إذ نهدي هذا الإنجاز التاريخي الى كل فلسطيني، فإننا نعبر عن تقديرنا وشكرنا لأسرة الجهاز المركزي للإحصاء الفلسطيني والفريق الوطني للتعداد على إصرارهم وعطائهم وتفانيهم في تحقيق هذا الإنجاز.

رام الله: 2008/5/22

The Population, Housing and Establishment Census (PHC-2007) is the second census conducted by the Palestinian Central Bureau of Statistics (PCBS) since the Palestinian National Authority (PNA) was established in 1994. The PHC-2007 was conducted in a very critical and complicated political, administrative, financial and organizational environment. It could not have been accomplished without the generous support of a number of friendly countries, international and national institutions and personalities.

The implementation of the PHC-2007 was co-financed by the PNA, United Nations Population Fund (UNFPA), the Core Funding Group (CFG) of PCBS (Norway, Netherlands, and Switzerland), OPEC Fund for International Development (OFID), Australia, and the United Nations Children's Fund (UNICEF), and the European Union (EU).

PCBS would not have been able to implement the PHC-2007 as a national project in such complicated circumstances without the important contribution made by the PHC-2007 National Higher Committee, the committees in the governorates, publicity campaign committees, and many other official and popular supporting committees and bodies.

We would also like to highlight the outstanding efforts made by the Census National Director, Executive Director, and all census national team members to plan, manage, implement, supervise, monitor, and coordinate census activities: senior assistants of the national and executive director, census directors in the governorates and their assistants, coordinators of the publicity campaign and their assistants, field supervisors, field observers, enumerators, administrators and other team members.

Printing of this document has been produced with financial assistance of the European Union. The contents of this document are the sole responsibility of the PCBS.

PCBS extends its deep thanks to all of these personalities and institutions for the tremendous efforts they exerted to bring the second Palestinian census to light.

#### **Preface**

The PHC-2007 is an important pillar of the national development process and a primary prerequisite for socioeconomic planning. Furthermore, it helps reinforce the Palestinian sovereignty on the ground. Countries around the world usually conduct censuses every decade according to the degree of population stability, the amount of potential change in the demographic characteristics and the availability of financial resources.

Realizing the importance of filling the gap regarding society's statistical needs on the current situation in the Palestinian Territory, PCBS conducted the first national population, housing and establishment Census in 1997. PHC-2007 was conducted for legal, development and statistical considerations. Success was strongly attributed to the huge efforts exerted by the national census team and the continuous support of the Palestinian leadership.

The main objective of the PHC-2007 is to update statistical data on the Palestinian population, housing units, economic establishments and agricultural holdings, and to provide small area statistics to planners and decision makers. PHC-2007 will contribute to realizing a balanced and comprehensive development in all sectors.

PHC-2007 was designed and implemented in accordance with United Nations principles and recommendations of the Population and Housing census taking into consideration the local Palestinian needs. Special attention was given to affording complete and adequate data on the size, structure, distribution and characteristics of the demographic, economic and social components of the Palestinian population; the characteristics of housing units; the number and characteristics of the economic establishments and making an inventory of agricultural holdings. Consequently, obtained statistical data will foster and support the role and efficiency of planning both on the national and local government levels.

As part of PCBS's efforts to provide users with the census results as soon as possible, the national census team made every possible effort to fulfill that, we were able to publish the preliminary results of the census five weeks after the end of the census fieldwork events. This is considered record time compared to other countries. In addition, the final results of the buildings and establishments data for the Palestinian Territory were also disseminated. To continue this work, this report is a part of the detailed reports about the population at the governorate level.

PCBS and the national census team are pleased to present this report containing the census final results in the Nablus Governorate which has been processed. We hope that it will be a reference for all planners, decision makers and policy makers in the public and private sectors and for civil society institutions.
