Introduction

Since its inception, PCBS has sought to build a system of Palestinian official statistics based on the needs of the society and in line with recommended standards, including full membership in the international statistical community. PCBS has adopted the principle of progression within existing Palestinian priorities as the basis for work towards developing the statistical system. PCBS has accomplished many statistical activities using primary sources, including censuses and field surveys, and secondary sources such as administrative records in cooperation with public and private sector institutions.

We are pleased to present the West Bank Southern Governorates Statistical Yearbook, 2011 to provide continuous time series data of general trends in different areas through a comprehensive statistical reference that covers most population, social, economic, and geographic areas.

This book is one of the most important and comprehensive official statistical references relating to the West Bank Southern Governorates.

This yearbook is divided into two chapters: the first chapter defines the main indicators relating to the West Bank Southern Governorates. The second chapter contains the concepts and definitions used in this statistical yearbook

We believe that we have succeeded in bridging gaps in information and have contributed to providing a key reference of official Palestinian statistics that will serve the developmental process and assist decision makers to create plans based on professional and scientific criteria at national and governorate level.

July, 2012

Ola Awad President of PCBS PCBS: West Bank Southern Governorates Statistical Yearbook, 2011

Chapter One

Main Indicators

This chapter presents the main findings of the most important demographic, geographic and economic indicators of the West Bank Southern Governorates.

1.1 Demographic Indicators

Population:

According to PCBS estimates, the population of the West Bank Southern Governorates was around 841 thousand in mid-2012

Estimated Population in the West Bank Southern Governorates, Mid- 2012

There are 144 thousand Palestinian refugees in the West Bank Southern Governorates are refugees.

There were 7,119 registered marriages in Sharia courts and churches in the West Bank Southern Governorates in 2011, which accounted for 19.6% of all marriages in the Palestinian Territory.

There were 798 registered divorces in Sharia courts in 2011, which accounted for 13.0 % of all cases of divorce in the Palestinian Territory.

Registered Marriages and Divorces in the West Bank Southern Governorates, 2011

The median age at first marriage in the West Bank Southern Governorates was 24.7 years for males and 19.8 years for females in 2011.

There were 24,643 registered live births in 2011 in the West Bank Southern Governorates: 12,594 male and 12,049 female, and constituting 38.2% of the West Bank total births. In the same year, there were 1,857 registered deaths: 1,016 males and 841 females, representing 29.0% of all the West Bank deaths.

Health:

There were 17 hospitals in 2010 in the West Bank Southern Governorates, including five government hospitals and the rest non-governmental hospitals. The total number of beds was 1,099, making an average of 1.4 beds per 1000 inhabitants.

There were 188 primary health care centers in 2010 in the West Bank Southern Governorates, with 145 health centers supervised by the Ministry of Health, 33 run by non-governmental organizations, and 10 health centers run by UNRWA.

Primary Health Care Clinics and Centers in the West Bank Southern Governorates by Supervisory Authority, 2010

The poverty rate among individuals in the West Bank Southern Governorates was 29.7% in 2010, compared to 18.3% among individuals in the West Bank for the same year. Monthly household expenditure in the governorate of Hebron was higher than in the other South governorates at JD 805.3.

Education:

Schools in the West Bank Southern Governorates

There were 644 schools in total with 229,386 students: 113,402 males and 115,984 females.

Percent Distribution of Students in the West Bank Southern Governorates Schools by Stage, 2011/2012

2.1 Geographic Indicators

Environment:

There were 40 localities not connected to a water network in the West Bank Southern Governorates in 2010.

In 2010, the local authorities provided water to 86 localities via the public network in the West Bank Southern Governorates, the Jerusalem Water Undertaking provided water to two localities and other authorities provided water services to 7 localities.

There were 13 localities not connected to an electricity network in the West Bank Southern Governorates during 2010. Local authorities provided electricity via the public network to 40 localities.

There were 40 localities in the West Bank Southern Governorates that had no solid waste collection service in 2010, while the local authority collected solid waste in 69 localities.

There were 12 localities used wastewater network as disposal method for wastewater in the West Bank Southern Governorates in 2010. And for the alternative method used in the localities for the disposal of wastewater in the absence of a sewerage system or sewerage network does not cover all users (residential, commercial, or industrial) in the localities, there are 120 localities used Porous and Tight Cesspits and 6 localities use more than one method.

Agriculture and Land Use:

The area of the West Bank Southern Governorates is $1,656 \text{ km}^2$ in year 2010, which represents around 29.3% of the total area of the West Bank. The cultivated land is 191.31 km^2 and represents 21.7% of the total cultivated area in the West Bank, and 11.6% of the total area of the West Bank Southern Governorates, during the agricultural year 2009/2010.

The results indicated that during the agricultural year 2009/2010, there were 27,174 agricultural holdings in the West Bank Southern Governorates, which represent 29.9% of all agricultural holdings in the West Bank. The most common type of agricultural holding in the West Bank Southern Governorates was plant holdings: there were 17,862 plant holdings comprising 65.7% of all agricultural holdings in the West Bank Southern Governorates. There were 5,288 mixed agricultural holdings, comprising 19.5% of all holdings, and 4,024 animal holdings comprising 14.8% of all agricultural holdings in the West Bank Southern Governorates.

There were 8,913 cows raised in the West Bank Southern Governorates, which represent 36.7% of cows in the West Bank, in addition to 180,539 sheep representing 35.7% of sheep in the West Bank, and 75,351 goats representing 36.4% of goats raised in the West Bank on the enumeration day, the first of October 2010.

In 2011, there were 33 active olive presses in the West Bank Southern Governorates representing 13.0% of all olive presses in operation in the West Bank. The quantity of oil extracted in the West Bank Southern Governorates totaled 1,243.7 tons, equivalent to 6.4% of all oil produced in the West Bank.

The results show that 114 people were employed in olive pressing activities in the West Bank Southern Governorates in 2011, comprising 9.6 % all West Bank olive pressing employees.

The value added of olive pressing activities totaled USD 0.6 million in the West Bank Southern Governorates in 2011, representing 9.7% of the overall value added in the West Bank.

Housing Conditions:

In the West Bank Southern Governorates, 59.7% of households live in a villa or house and 39.7% live in an apartment.

Tourism:

There were 28 hotels operating in the West Bank Southern Governorates with an average of 2,050 rooms and 4,341 beds. During 2011, the total number of hotel guests was 225,164, spending 569,641 nights. The room occupancy rate in the West Bank Southern Governorates hotels was 15.4%.

3.1 Economic Indicators

Establishments:

There were 22,110 economic establishments operating in the West Bank Southern Governorates in 2010 with a total of 61,731 workers, comprising 50,748 males and 10,983 females.

Building Licenses:

In 2011, 2,240 building licenses were issued in the West Bank Southern Governorates with a total area of 1,076.6 m^2 . Of these licenses, 686.3 m^2 were for new buildings and 390.3 m^2 were for existing buildings.

Issued Building Licenses* in the West Bank Southern Governorates, 2011

*Data do not include boundary walls licenses.

Transportation:

Licensed vehicles in the West Bank Southern Governorates in 2010 was 32,935.

There were 5,600 new registered vehicles in the West Bank Southern Governorates in 2010.

Registered Foreign Trade:

Imports:

Imports decreased by 1.0% in the West Bank Southern Governorates in 2010 compared to 2009 and totaled USD 990.1 million.

Exports:

Exports decreased by 3.2% in the West Bank Southern Governorates in 2010 and totaled USD 238.9 million.

Trade Balance:

The trade balance for the West Bank Southern Governorates registered a deficit in 2010 of USD 751.2 million.

Chapter Two

Concepts and Definitions

Agricultural Holding:

It is an economic unit of agricultural production under single management comprising all kept livestock and all land used totally or partially for agricultural production purposes regardless of title, legal form, or size. Single management may be exercised by an individual or household, jointly by two or more individuals or households, by a clan or tribe, or by a juridical person such as a corporation, cooperative, or government agency. The land of the holdings may consist of one or more parcels located in one or more separate areas, or in one or more territorial or administrative divisions, providing the parcels share the same production means, such as labour, farm buildings, machinery or draught animals.

Agricultural Land:

It refers to the major classes of land use of agricultural holdings. For classification, the "gross area" is surveyed for each class. Agricultural land includes land under scattered farm buildings, yards and their annexes, plus permanently uncultivated land such as uncultivated patches, banks, footpaths, ditches, headlands and shoulders (ECE 1986).

Animal Holding:

The presence of animals controlled by the holder. The holder should have any number of cattle or camels, at least five heads of sheep, goats or pigs, at least 50 poultry birds (layers and broilers), or 50 rabbits or other poultry like turkeys, ducks, fer...etc, or a mixture of them, or at least three beehives controlled by the holder.

Average Room or Bed Occupancy:

It is defined as the total number of rooms or beds occupied and divided by the number of days.

Average Housing Density:

This refers to the average number of persons living per room. This average is calculated by dividing the total number of individuals of a certain category from households by the total number of rooms for that particular category.

Bed Occupancy:

Number of beds booked and paid for. Such beds are considered occupied whether they were actually used or not.

Bed Occupancy Rate:

Days of hospitalization by admitted patients, divided by the number of beds and multiplied by the days of the year.

Building:

The building is defined as any fixed construction that is temporarily or permanently erected on the surface of the earth or water. The building is surrounded by four walls or with at least one completed ceiling.

Employee Compensation:

The total remuneration, in cash or in kind, including social security contributions, payable by an olive press to an employee in return for work done by the latter.

Death:

The permanent disappearance of all evidence of life at any time after live birth has taken place.

Discharges:

Patient discharged from a hospital after having received diagnostic and curative health care, regardless of the case of the discharged person (cured or dead).

Exports:

It refers to the whole commodities (goods and services) that are exported outside the country, conditioned with ownership transcription to another economy, or to free customs regions as a discount from the national economy as a result of a transaction with a non-resident economy.

Establishment:

An enterprise or part of an enterprise in which one group of goods and services is produced (with the possibility of secondary activities).

Government School:

Any educational institution run by the Ministry of Education or any other ministry or governmental instrument.

Government Public Sector:

Includes all institutions of the three branches: legislative, judicial and executive.

Gross Value Added:

Value added is a South concept of production and refers to the generated value of any unit that carries out any productive activity. Gross value added is defined as the value of gross production less the value of intermediate consumption.

Guests:

It refers to visitors staying in hotels and using their facilities. Records of new guests are based on the number of visits regardless of whether it is the same person or not.

Health:

Many definitions exist. As defined by the World Health Organization: "A state of complete physical, mental and social well-being and not merely the absence of disease or infirmity".

Hospital:

An institution whose primary function is to provide services (diagnostic and therapeutic) for a variety of medical conditions, both surgical and non-surgical. Most hospitals also provide some outpatient services, particularly emergency care.

Hotel:

It is defined as an accommodation establishment providing overnight lodging for visitors in a room or unit. It should hold a number of persons exceeding that of an average single family. The establishment must be under one management and provide different facilities and services to visitors.

Housing Unit:

A building or part of a building constructed for one household only, with one or more independent entrances leading to the public road without passing through another housing unit. The unit might not be constructed for living purposes but be found occupied by a household during the enumeration. Likewise, the unit might be utilized for habitation or for work purposes, or both. Also, it might be closed, vacant or occupied by one or more households during the survey.

Housing Unit Type:

Housing unit type may refer to a villa, house, apartment, independent room, marginal, tent or other.

Household Expenditure:

This refers to the amount of cash spent on the purchase of goods and services for living purposes and the value of goods and service payments, or part of payments, received from an employer, and cash expenditure spent as taxes (non-commercial or non-industrial), gifts, contributions, interest on debts, and other non-consumption items.

Household Consumption:

This refers to the amount of cash spent on the purchase of goods and services for living purposes and the value of goods and service payments, or part of payments, received from an employer, and own-produced goods and food, including consumed quantities during the recording period, and imputed rent.

Imports:

It refers to the whole commodities (goods and services) entering the country by air, land and sea that are used in consumption, convertibility in the manufacturing sector, and re-exportation.

Intermediate Consumption:

It is the value of the goods and services consumed as inputs, used up, or transformed during the production process. It is measured during a specific time period in a way similar to measuring production. Intermediate consumption is estimated by purchase price, which is defined as the producers' price plus transportation and wholesale and retail trade margins. The value of gross intermediate consumption on the level of the total economy is the same whether calculated by purchase or producers' price. However, on a detailed level, the two evaluations vary.

Establishment in Operation:

An establishment which is in operation during the implementation of the establishments census.

Labor Force:

The economically active population (labor force) consisting of all persons aged 15 years and over who were either employed or unemployed.

Livestock:

Refers to all animals kept or reared mainly for agricultural purposes, including cattle, buffaloes, sheep, goats, pigs, horses, mules, asses, camels, poultry, rabbits, bees and other domesticated animals, as well as foxes and minks.

Main Economic Activity:

Is the main work of the enterprise based on the ISIC- rev4 and that contribute the major proportion of the value added, whenever more than one activity exists in the enterprise.

Mean Duration:

Total days of hospitalization divided by the number of discharged patients.

Median Age at First Marriage:

The age that divides individuals into two categories, either married before it or married after it.

Mixed Holding:

Where the holder has plant and animal holdings according to the definition of a plant and animal holding, providing both animal and plant activities and sharing the same means of production, such as labour, farm buildings, machinery or draught animals.

The West Bank Southern Region:

Hebron, and Bethlehem governorates.

Number of Guest Nights:

Number of beds booked for hotel guests. Such beds are considered as occupied whether they were actually used or not. It is measured by guest night unit.

Number of Rooms:

It refers to furnished rooms for the use of guests. Such rooms might be single, double, triple, or quadruple. Rooms involving more than four beds were classified under 'others' in the questionnaire. A suite usually comprises one bedroom or more, a living room and private toilet facilities.

Number of Persons Engaged:

This includes paid employees, unpaid owners and family members, in addition to all permanent and temporary staff aged 10 years and more.

Olive Press:

An enterprise or part of an enterprise in which one group of goods and services is produced (olive oil, with the possibility of secondary activities).

Outputs:

It is the value of the final products of goods and services produced by a certain olive press which is used by other units for self-consumed or for the purposes of self gross fixed capital formation.

Percentage of Room or Bed Occupancy:

It is defined as the average occupancy of a room or bed, divided by the available rooms or beds and multiplied by one hundred.

Plant Holding:

The presence of cultivated or arable land area for any agricultural crops controlled by the holder It must not be less than one dunum for an open cultivated area and 0.5 of a dunum for a protected cultivated area.

Population Density:

Number of population per km² of area.

Poverty:

Is often defined as "the absence of the minimum standard of income or resources to meet basic needs" and as "the inability to attain the minimum standard of living." Two poverty lines have been developed according to actual spending patterns of Palestinian families. The first, termed "deep poverty line" was calculated to reflect a budget for food, clothing and housing. The second line adds other necessities including health care, education, transportation, personal care, and housekeeping supplies. Since consumption levels better reflect the population's needs, and help to specify the poverty line in Palestine, the monthly consumption level is used rather than the monthly income.

Private Sector:

Includes all institutions owned by individual/s or part of an organization the purpose of which is for profit in most cases.

Public Water Network:

A network of pipes for the purpose of providing clean water to households. It normally belongs to a municipality, council or to a private company and may be for different domestic uses.

Refugee Status:

This status relates to the Palestinians who were forced to leave their land in the Palestinian Territory occupied by Israel in 1948. It applies to their male sons and grandchildren. Every Palestinian falls under one of the following categories:

Registered Refugee: It applies to a registered refugee holding a refugee registration card issued by UNRWA.

Non-Registered Refugee: It applies to an unregistered refugee who does not hold a refugee registration card issued by UNRWA.

Non-Refugee: It applies to any Palestinian not categorized under any of the two aforementioned statuses.

Residence:

Defined in economic terms, the main criterion to determine the residence of an entity is the centre of economic interest. Persons are considered residents of the country where they live for at least one year, excluding students, for reasons of illness, and soldiers.

Room Occupancy:

Number of rooms booked and paid for. Such rooms are considered occupied whether they were actually used or not.

School:

Any educational institution, excluding kindergartens, regardless of the number of students and grade structure.

Secondary School:

Includes schools with secondary stage, or basic and secondary stage.

Sewage Network:

System of collectors, pipelines, conduits and pumps to evacuate wastewater (rainwater, domestic and other wastewater) from any of the location paces generation either to a municipal sewage treatment plant or to a location where wastewater is discharged.

Tenure of Housing Unit:

Tenure status indicates whether the household occupies the housing unit as an owner, rented, or other (including without payment and for work purposes).

Underemployment:

Underemployment exists when a person's employment is inadequate in relation to alternative employment, with account being taken of his\her occupational skills. The underemployed persons are classified into two groups: 1. Visible Underemployment: this refers to an insufficient volume of employment: persons who worked less than 35 hours during the reference week or worked less than the normal hours of work in their occupation were considered as visibly underemployed. 2. Invisible Underemployment: refers to a misapplication of labour resources or fundamental imbalance between labour and other factors of production, such as insufficient income.

Unemployed (According to the ILO Standards):

Unemployed persons are those individuals aged 15 years and over who did not work at all during the reference period, who were not absent from a job, were available for work and actively seeking a job during the reference period by one of the following methods: news paper, registered at employment office, asking friends or relatives, or any other method.

UNRWA School:

Any school run or supervised by UNRWA.
