The International Investment Position (IIP) is an accounting sheet that records the investments stocks for the residents in Palestine (individuals, institutions and government) invested in the rest of the world (abroad) under the name of (assets), and compares them to the investments stocks owned by residents outside Palestine (individuals, institutions and government) invested in Palestine under the name of (liabilities).

The Balance of Payments Manual - fifth edition, issued by the International Monetary Fund in 1993, divides the assets and liabilities into direct investment (investment by 10% and more in the non-resident capital), and portfolio investment (investment less than 10% in the non-resident capital as well as investment in bonds), and other investments. It divides these other investments into stocks of trade credit, loans, currency and deposits and any other assets or liabilities), in addition to the Reserve Assets, i.e. Stocks held by the Central Banks/ Monetary Authorities to address the imbalances in the balance of payments, it is worth mentioning that the reserve assets are only included in the asset side.

The External Debt is an accounting sheet that records the debt stocks on Palestinian economic sectors due to non-residents. These include (loans from non-residents, deposits of non-residents deposited in the banks operating in Palestine, the Palestinian bonds purchased by non-residents, debt transactions between the non-resident enterprises and fellow enterprises in Palestine. They encompass as well any other liabilities on Palestinian economy) the data of external debt have been extracted from the liabilities side in the international investment position matrix (debt items). Preparing, classifying and publishing of the data are based on (External Debt Statistics Manual) issued by IMF in 2003, this manual is harmonized with the fifth edition of Balance of Payments Manual.
