

Note to users:

Industrial Production index for July 2020 has been revised accordance to latest international recommendations in this regard.

[New press release](#)

Palestinian Central Bureau of Statistics continues to work on data collection and production of Palestinian Industrial Production Index in light of COVID-19 (CORONA VIRUS) pandemic

Increase in the Industrial Production Index (IPI) in Palestine during July 2020

The overall IPI in Palestine reached 142.60 during July 2020 with an increase of 6.76% compared to June 2020 (Base Year 2018 = 100).

IPI for July 2020 increased due to the sharp increase in the **activities of Electricity, Gas, Steam and Air Conditioning Supply** by 21.43% which had a share of 11.95% of the total industry, and the **activities of Water Supply, Sewerage, Waste Management and Remediation** by 7.09% which had a share of 2.39% of the total industry, and the **activities of Manufacturing Industry** by 5.22% which had a share of 82.98% of the total industry, while the **activities of Mining and Quarrying** decreased by 11.03% which had a share of 2.68% of the total industry.

collected in Palestine, reached 365 facilities. Thus, in light of the temporary closure of many facilities due to applying the Palestinian emergency plan, the completion of data collection process in July 2020 is as follows:

Region	Number of Collected facilities	Number of Non-Collected facilities	Percentage of Collected facilities
Palestine	360	5	99%

Please note that the press release in English is brief compared to the Arabic version.
