Virtual United Nations World Data Forum,2020
Information Note for Attendees

What? 2020 Virtual United Nations World Data Forum. For background, click here.

Why? A virtual Forum to satisfy demand for the latest data solutions and thinking to support the 2030 Agenda for Sustainable Development and now more urgently for the monitoring and recovery from COVID-19. Details, including the programme, can be accessed here.

When? 19 – 21 October 2020

Where? Virtually powered through Attendify. The platform provides access to the Forum's web browser interface on your desktop as well as the smartphone app.

How? Register for the 2020 Virtual #UNDataForum by following the two-step process
1. Get your ticket here
2. Create your profile by signing up to the Attendify platform using the instructions on your ticket.

Once signed up, you will have access to:
- Pre-recorded sessions (available starting 12 October 2020)
- Programme with live sessions (19 – 21 October 2020)
- Networking opportunities (available starting 15 September):
    - Activity stream to share your ideas and thoughts with fellow attendees
    - Within each session
    - Private messaging to speakers and attendees
    - Group messages and channels (available on smartphone app only)
- Exhibit spaces
