## **Introduction**

The Transportation and Communication is one of the main economic activities in Palestinian society. This activity contributes to the gross domestic product significantly, and provides working opportunities for a considerable number of people.

This report presents the available statistics on the main components of the transportation system. A major component is land transport that covers vehicles by type, in addition to other indicators like driving schools, number of garages, etc. The report also shows the main indicators of the air transport activity, which covers the departure and arrival flights. Also the report presents figures on post including letters with their traditional classification, and the main elements of communication system including main telephone lines and their waiting list, telephone calls and their lengths.

This report consists of three chapters along with a group of tables. The first chapter consists of presents the main findings of the report. The second chapter sheds light on the methodology and data quality main concepts and definitions used in this report. The third chapter presents the main concepts and definitions used in this report

PCBS is pleased to introduce the annual report 2011 as the fourteenth publication of report series on transportation and communication statistics in the Palestinian Territory. The main objective of publishing this series is to establish a comprehensive database covering the main indicators on the transportation and communication sector in the Palestinian Territory, and to formulate a time series about these indicators that show the changes.

**July, 2012**

**Ola Awad  
President of PCBS**

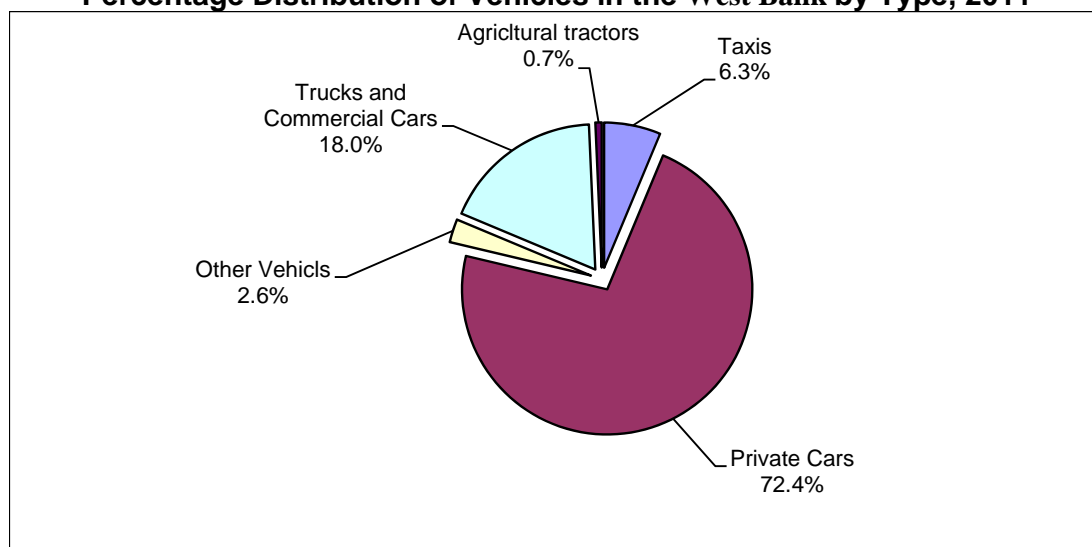

## Chapter One

**Main Findings****1.1 Land Transportation****1.1.1 Vehicles**

The total number of licensed vehicles in the West Bank in 2011 was 138,644, the percentage distribution of licensed vehicles in the West Bank shows that the majority were private cars 72.4%, on the other hand, the percentage of trucks and commercial cars was 18.0%, Taxis formed 6.3% of the total vehicles. The percentage of agricultural tractors in the West Bank was 0.7%, while the remaining vehicles, formed 2.6% (*Table 2*).

**Percentage Distribution of Vehicles in the West Bank by Type, 2011**

Regarding new registered road vehicles in the West Bank in 2011, the monthly average of registered vehicles was 1,419 vehicles.

The percentage distribution of registered new vehicles in the West Bank by type shows that the highest percentage was for registered private cars by 77.5% followed by taxis was 10.0%, The percentage of the trucks and commercial cars, which was 9.1%. on the other hand the percentage of other vehicles, which cover moped, motorcycles, buses, trailers and semi-trailers, road tractors, agricultural tractors, in addition to other vehicles, was 3.4% (*Table 3*).

**Percentage Distribution of New Registered Road Vehicles in the West Bank by Type, 2011**

**1.1.2 Driving Licences**

The total number of issued driving licences in the West Bank was 25,857 at the end of 2011, (*Tables 10,11*).

**Number of Issued Driving licences in the West Bank by Month, 2011**

**1.1.3 Road Accidents**

The total number of registered road accidents in the West Bank amount to 7,406, (*Tables 12,13*).

On the other hand, the number of casualties resulting from those accidents reached 7,970, figure shows the number of road accidents and casualties in the West Bank. (*Table 14*).

### Number of Registered Road Accidents and Casualties in the West Bank by Month, 2011

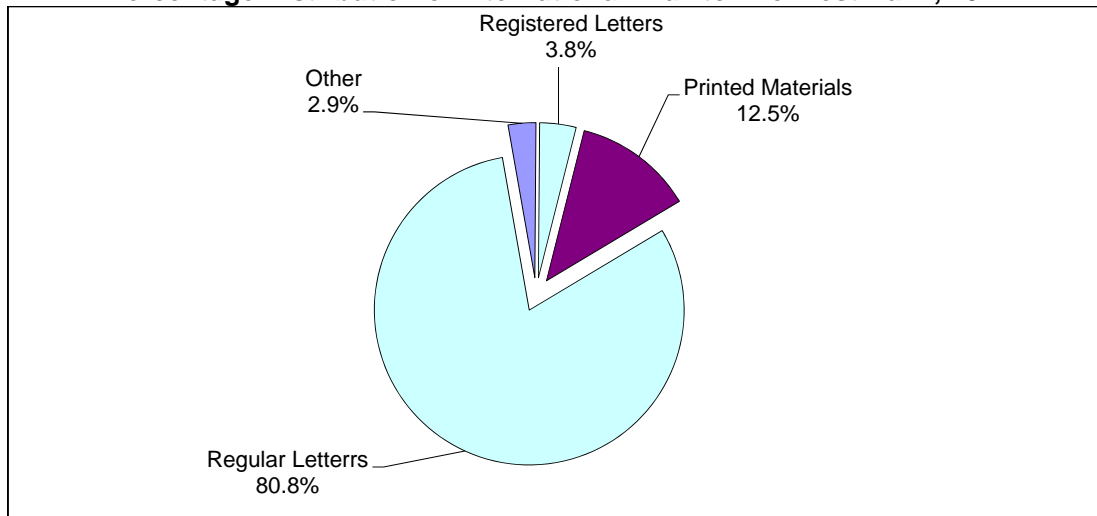

### 1.2 The Post Office Data

International received mail in the West Bank consisted of 245,270 postal materials in 2011, with a monthly average of 20,439 pieces.

The percentage distribution of these materials shows that the majority was regular letters, as they formed 80.8%. The percentage of printed materials was 12.5%, while the percentage of registered letters was 3.8%, and the remaining percentage 2.9% covered express mail, parcels, telegrams, and small packets.

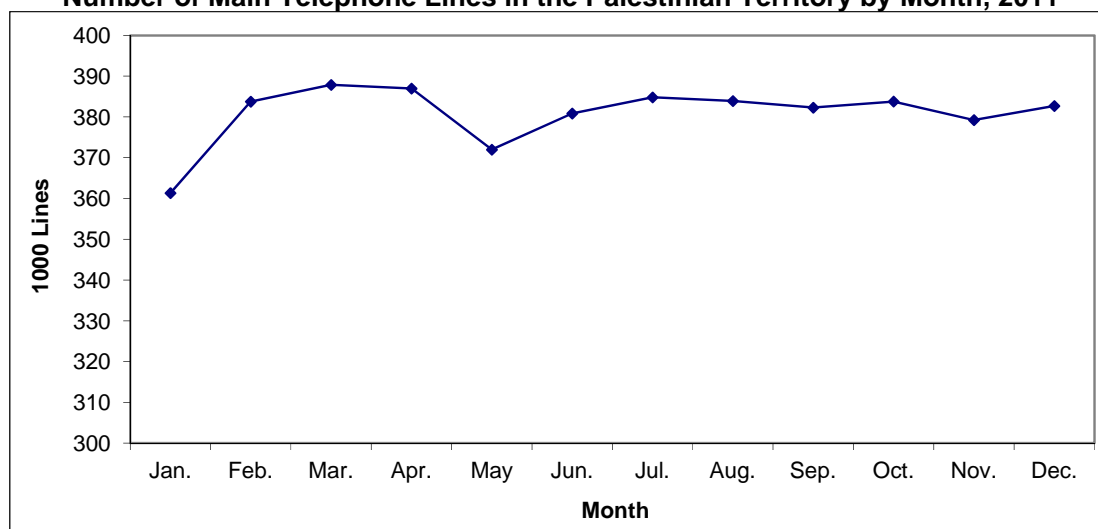

The highest number of postal materials was in December, where there was 32,660 postal materials, and the lowest number of these materials was in May, where there was 2,763 pieces (*Table 16*).

### Percentage Distribution of International Mail to The West Bank, 2011

### 1.3 Telecommunications

The total number of main telephone lines in the Palestinian Territory at the end of 2011 was 382,700 lines with a crease rate of 6.2% compared to the previous year, (*Tables 21, 22*).

**Number of Main Telephone Lines in the Palestinian Territory by Month, 2011**

Regarding to the total number of public phone lines in the Palestinian Territory was 2,357 Lines at the end of 2011, and of which 2,245 in the West Bank and 112 in Gaza Strip, (*Tables 22*).

#### **1.4 Cellular Phone**

The total number of subscriptions of Cellular phone at the end of 2011 in the Palestinian Territory was 2.9 Million used bill and card system. (*Tables 24, 25*).

## Chapter Two

### Methodology and Data Quality

#### 2.1 Data Collection

The data of this report is based primarily on administrative records of various institutions, in addition to data extracted from some surveys performed by PCBS. After getting data from its sources, it was rearranged, reclassified, and then tabulated in a way to achieve the purpose of this report.

#### 2.2 Coverage

Although the main objective of publishing annual reports on transportation and communication is to construct time series of the main indicators related to the transportation and communication sector in the Palestinian Territory, it is noticed that this report mainly covers the main indicators related to transportation and communication during 2010, with only a few indicators from past years.

The majority of data does not provide information about Jerusalem, except data on labor force. and cellular phone.

#### 2.3 Accuracy of the Data

##### 2.1.3 Statistical Errors

The report was implemented on the basis of a comprehensive census for all studied statistical units; therefore this survey was free of statistical (sampling) errors.

##### 2.2.3 Non-Statistical Errors

Non-statistical errors are possible to occur at all stages of preparing the report, during the data collection or introduction, and to avoid errors and reduce their impact were made great efforts during the visit to check the data sources to ascertain data validity, and to examine the data entry program before starting the process of data entry.

#### 2.4 Comparison of the Data

Comparison exercises were done with previous year's survey of transportation and communication statistics, the results reveal consistency with previous surveys data.

#### 2.5 Technical Notes

There are important technical notes which should be taken into consideration when reviewing this report, which are as follows:

- Tables exclude data for those parts of Jerusalem which were annexed force fully by Israel in 1967, except for labor force and Cellular Phone data.
- It may be noticed that the details of the value of some indicators may not add to its total, due to rounding calculations.
- Vehicle data, characteristics, Internet cafes in the Gaza Strip are not available from administrative records in 2011.
- The data of length of calls in minutes in 2011 are not available.
- The data on Road network length in the Palestinian Territory 2011 is not available.

## Chapter Three

### Concepts and Definitions

**Wage employee: (indicator)**

A person who works for a public or private employer or under it's supervision and receives remuneration in wage, salary, commission, tips, piece rates or in kind ...etc. This item includes persons employed in governmental, non – governmental and private institutions along with those employed in a household enterprise in return for a specific remuneration

**Average Weekly Working Hours: (indicator)**

Total weekly working hours of employees whose wages are known, divided by the number of employees.

**Average Monthly Working Days per Employee: (indicator)**

Total monthly workdays of employees whose wages are known divided by the number of employees.

**Average Daily Wage per Employee: (indicator)**

Total net wages paid to all employees divided by total working days. wages received in different currencies are converted into New Israeli Shiekles according to the exchange rate in the survey month.

**Vehicle:**

A vehicle running on wheels and intended for use on roads.

**Motor Vehicle:**

A vehicle fitted with auto propulsive engine, it is normally used for carrying persons or goods, and drawing vehicles.

**Private Car:**

A motor vehicle, other than motorcycle intended for the carriage of passengers and designed to seat no more than 9 persons (including the driver).

**Taxi:**

A motor vehicle intended for the carriage of passengers (in return for payment), and designed to seat no more than 9 persons (including the driver), and described in its license as a taxi.

**Motorcycle:**

Two wheeled motor vehicles with or without sidecar.

This category includes scooter, three-wheeled vehicles not exceeding 400 kg.

Motorcycles are classified according to the engine capacity as: less than 50 cm<sup>3</sup>, 50-100 cm<sup>3</sup>, 100-250 cm<sup>3</sup>, and grater than 250 cm<sup>3</sup>.

**Bus:**

A motor vehicle designed to carry more than 9 passengers (including the driver).

**Trailer:**

Goods road vehicles designed to be hauled by a road motor vehicle. Excluding agricultural trailers and caravans.

**Semi-Trailer:**

Goods road vehicle with no front axle designed in such a way as to be hauled by road tractor.

**Road Tractor:**

A motor vehicle designed exclusively or primarily to haul other vehicles, which are not power-driven. Agricultural tractors are excluded.

**Truck:**

A motor vehicle designed for another purpose than passenger transport, its height is more than 250 cm, and described in its license as a truck.

**Commercial Car:**

A motor vehicle designed for another purpose than passenger transport, weights more than 2200 kg, its height is more than 175 cm and less than or equal to 250 cm, and described in its license as a commercial vehicle.

**Other Vehicle:**

A vehicle designed for purposes other than the carriage of passengers or goods. This category includes: ambulances, mobile cranes, self-propelled rollers, bulldozers with metallic wheels or tracks, vehicles for recording film, radio, and TV programs, mobile library vehicles, towing vehicles for vehicles in need of repair.

**Rate of Licensed Motorization per 1000 Capita: (indicator)**

Number of vehicles divided by the number of people multiplied by 1000 (number of vehicles/number of people x 1000).

**Bypass Road:**

Construct by Israeli Occupation to link the Settlements with each other and with Israel.

**Road Traffic Accident:**

An accident, which occurred as a result of the vehicle being in a state of motion and in which people were injured.

**Killed in Road Traffic Accident:**

A person who died as a result of the accident, or died of his injuries within 30 days of the accident.

**Seriously injured:**

A person who was hospitalized as a result of the accident for a period of 24 hours or more.

**Slightly injured:**

A person who was injured as a result of road traffic accident and was not hospitalized, or was hospitalized for short period (up to 24 hours).

**Regular Flights:**

A series of flights fulfilling at least the following conditions: they are performed by a passenger aircraft, their tickets are open for free sale to the general public; they are planned and adjusted according to the needs of traffic, carried out according to existing aviation agreements, The operating license and the fixed timetables are also available to the general public.

**Irregular Flights:**

All the flights for remuneration other than those reported under regular flights.

**Number of Passengers in a Flight: (indicator)**

All passengers, excluding airplane staff and infants (less than 2 years of age).

**Number of Available Seats: (indicator)**

The total number of passenger seats available for sale between each pair of airports on a flight stage (excludes seats not actually available for the carriage of passengers because of the weight of fuel or other load).

**Letter:**

A post matter that has the property of communication. It could be written, typed or both. This includes commercial samples, which are contained in an envelope. The lowest limit of the shortest length is 140, while the lowest limit of the shortest width is  $90 \text{ mm} \pm 2 \text{ mm}$ . The sum of length, width, and thickness should not be greater than 900 mm. The highest limit of the length of any dimension is 600 mm. The weight of the letter should be between 20-2000 g.

**Regular Letter:**

A letter that is sent by normal post with regular fees.

**Express Mail:**

A letter intended to be delivered quickly (24 hours) from the moment of reception by the post center. Normally extra fees are applied.

**Printed Matter:**

A post matter, which is printed by a printing shop, or by any other method such as copying, books, and booklets. It has a cultural and scientific property, and not communication property. The lowest limit of the printed material length and width is 140,  $90 \text{ mm} \pm 2 \text{ mm}$  respectively. The highest limit of the sum of length, width, and thickness is 900 mm. The highest limit of the length of any dimension is 600 mm. The highest weight of the printed material is 2 kg, it is also allowable to reach 5 kg when the printed material is book.

**Registered Letter:**

A letter to which extra fees is applied and for which the sender gets a receipt. It is normally delivered to the addressee or other person acting as such after checking his identity and taking his signature on a receipt.

**Post Packet:**

Material posted as presents, such as food, clothes, beauty-care materials, perfumes, and commercial samples. The lowest limit of post packet length and width is 140,  $90 \text{ mm} \pm 2 \text{ mm}$  respectively. The highest limit for the sum of length, width, and thickness is 900 mm. The highest limit of the length of any dimension is 60 mm. The highest weight of the post packet is 2 kg.

**Parcel:**

Material posted as closed flexible or rigid packet, containing papers, books, food, clothes, etc. The highest limit for the sum of the parcel lengths, twice the width, and twice the thickness is 3 m. The highest limit of the length of any dimension is 1.5 m. The highest weight of inland parcel is 20 kg, while in case of parcels sent abroad the highest limit is 5-20 kg, or according to the rules of the receiving country.

**Telegram:**

Letter with a limited amount of words, sent inland or abroad by telex, fax, or telephone. Fees are paid according to the number of words.

**Local Telephone Traffic (Minutes):**

Local telephone traffic consists of effective (completed) fixed telephone line traffic exchanged within the local charging area in which the calling station is situated. This is the area within which one subscriber can call another on payment of the local charge (if applicable). This indicator should be reported in the number of minutes. If the indicator is reported in calls or meter units (pulses), then an appropriate conversion figure to minutes of traffic should be supplied.
